Dear Reader:

If you have other examples of war propaganda and critical thoughts, please send them to us. Let us know if you are interested in further information for yourself and/or others.

If you are interested in working for peace, think about what you enjoy doing and what you are good at. We would be happy to discuss how you could use this to help build the Movement for Peace

Humanity needs peace, not military spending and war. We need to devote our resources to the protection of our natural world and to all people. This includes seeing to it that everyone is adequately fed, clothed, and housed, has health care, education, and other necessities. This can only be accomplished if people everywhere cooperate and reject domination.

A VACCINE AGAINST THE VIRUS OF WAR PROPAGANDA

Main ingredient: Application of the Golden Rule including seeing things from another's point of view.

Warning: This vaccine is unlikely to have the approval of the United States government in the near future due to certain side effects, which include:

1. Tendency to dissociate oneself from the MICIMATT Complex (Military-Industrial-Congressional-Intelligence-Media-Academic-Think Tank Complex);
2. Opposition to war and military spending;
3. Lack of enthusiasm for American exceptionalism;
4. An increased sense of sisterhood and brotherhood toward people in other countries;
5. Organizing for a government that is truly of, by, and for the people.

This is only a partial list of side effects.

For Maximal Effect: Have this document in hand when listening to the news. Use this vaccine to think critically about the message being broadcast and help others do the same.

Intended Therapeutic Effects:
Critical thinking when confronted with war propaganda.

War Department

Secretary of War

Merchants of death

An order in which the US makes the rules that other nations are to obey

Term used by the US (with over 800 military bases strewn about the world) complaining, because another country is disobeying the "Rules Based Order"

A military adventure that violates international law and is being dressed up with the word "humanitarian"

A term used to characterize the actions of another country giving the impression that the other country is a child, and the US is the world parent

Economic warfare, violations of the UN Charter and international law

War is terrorism.

The murder of innocent human beings from another country, human beings with loved ones like you and I have.

Global insecurity

Who is this "we" or "us"?

US corporate interests

A threat to US corporate profits

Pure insanity

Potentially any country that rejects US economic or political domination
